The mansion home at Belair is a national shrine. It was built in 1742 as the home of the first colonial governor of Maryland.

The Belair Herd is owned by the Estate of Wm. Woodward, Jr. and is under the capable management of Wm. A. Davidson, widely and favorably known in the Shorthorn industry. Executor for the Estate is the Hanover Bank, New York 15, N. Y., who have placed the responsibility of dispersing this herd in the efficient hands of W. A. Spillman, Jr. of the Spillman Farm Management Service, Brandy, Virginia (phone Culpeper 5171).

# *Terms and Conditions*

1. The terms of this sale are cash.
2. Each animal will be at purchaser's risk as soon as bid off but will not be delivered until settlement has been made. Cattle will be cared for at the farm for a maximum of five days and loading on trucks free of charge but at purchaser's risk of loss or injury.
3. The Belair Herd is certified for Bang's Disease with Certificate No. 5982. The Belair Herd is also accredited for Tuberculosis with Certificate No. 325049. This will make possible the easy delivery of cattle to all states. As a further precaution, all herd bulls will be tested for Bang's Disease and Tuberculosis within 30 days of the date of the sale and all females over 15 months of age will be tested for Tuberculosis and Bang's Disease within 30 days of the date of the sale. Calfhood vaccination for Bang's Disease has been practiced regularly in the Belair herd. A representative from the office of the Maryland State Veterinarian will be in attendance on sale day to issue health certificates.
4. Certificates of registry with transfers entered and recorded in the buyer's name will be furnished with each lot sold and properly signed applications will be furnished for the registry of all calves at foot and all unborn calves.
5. The Belair Herd is backed by an enviable reputation gained through good management and honest business practices. The pedigrees are correct and the cattle are healthy. Nearly every cow in the herd either has a calf in the sale or at foot, or shows every evidence of being well forward in calf. Semen of the herd bull, Lanedale Leader 2nd x, will be tested and all females of breeding age will be examined for pregnancy ten days prior to the sale and the results of these tests will be made public. Any known faults will be clearly announced on sale day. As this is a dispersion sale, no guarantee will be given, except in the case of the herd bull, Lanedale Leader 2nd x. The executor of the estate of Wm. Woodward, Jr. will guarantee him to be a breeder, if not allowed to run with the herd, and if he is maintained in as good condition as when purchased. In case this bull fails to prove a breeder, notice must be given to W. A. Spillman, Jr., P. O. Box 73, Brandy, Virginia, within six months of the date of the sale. The purchase price, without interest, will be refunded in case this bull fails to meet the guarantee and the disposal of the animal will be at the option of the seller.
6. Announcements from the auction box will take precedence over printed matter in the sale catalog. Breeding sheets will be made available sale day.

**LIABILITY**—The above terms and conditions shall constitute a contract between the Estate of Wm. Woodward, Jr., the seller, and the buyer of each lot. Neither the individual designated as sale manager, the clerk, or auctioneers, assume any liability, legal or otherwise. The sale manager was retained by the owner for specific tasks, promotional and clerical, and has nothing to do with the condition of the premises or the handling of the cattle. Accidents at cattle sales are rare, but every person attending must do so at his own risk. The owner will make every effort to provide for the comfort and safety of those attending.

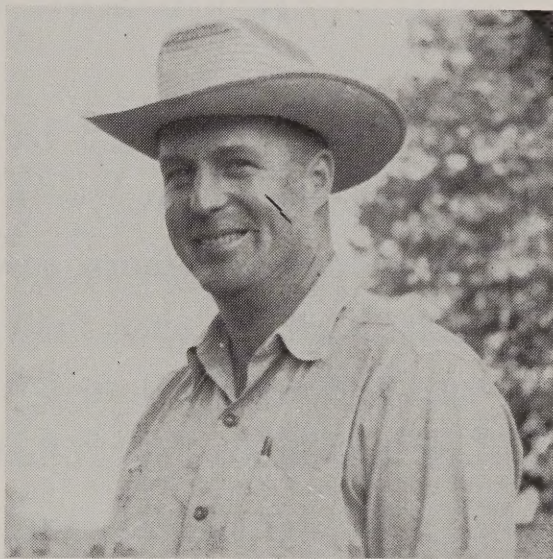

## *A Message From Belair Farm Manager*

My father came to Belair in 1910 and managed the farm operation until he was retired in 1950. In the early days most attention was given to the raising of Clydesdale horses and Thoroughbred race horses. A purebred Shorthorn herd was maintained but was handled on a commercial basis to produce steers for the Baltimore market.

Upon my father's retirement I was made manager of the farm on which I had been born, and since the draft horse business had declined greatly, more emphasis was put on the cattle. In 1954 it was decided to go into Polled Shorthorns so that the cattle and horses could run together. A strong battery of herd bulls has been acquired, and we felt that we were building up a really fine herd.

The cattle have never been pampered. They are in good breeding condition and are a very prolific group. Since the operation was so large, we have practiced pasture breeding exclusively. The decision to sell the herd was made very recently, so there has been no time for fitting.

W. A. DAVIDSON, Manager

**Bill Davidson, manager of Belair Farm, famous for race horses and Polled Shorthorns.**

## *A Message From The Sale Manager*

This is the closing out of one of the oldest and largest herds in North America. Established largely on families that had proved most prolific under tests conducted at the U. S. Government Experimental Farm at Beltsville, Maryland, and improved through the purchase of females and stock bulls from other noted herds, the Belair Herd has been maintained for nearly half a century. Polled Shorthorn females were added in 1954 through a large purchase from the strong herd of Thos. Piatt and polled blood was further infused through the use of top sires that all descended from strong Cherry Hill breeding.

This is a large herd, maintained on a thoroughly practical basis and under conditions that assure good health and rapid production. Never has the cow herd been kept in high flesh. The decision to disperse came suddenly. No attempt to fit the cattle will be made. They are in average farm condition. The herd bulls are nationally known and each has been running with a group of cows. Approximate pasture breeding dates will be announced. There are **GOLDEN OPPORTUNITIES** in the dispersion of this large herd for breeders who will seek out rare bargains and for commercial operators who will recognize excellent utility cattle with size, bone, substance and rapid producing ability.

### — *Champions* —

Above are shown the grand champion pen of five steers at the 1955 Eastern National Livestock Show. These steers were bred, fed and exhibited by Belair Farm, Bowie, Maryland. Averaging 1,130 lbs. per steer, they were purchased at 30c per pound by Gilbert Eidman, owner of "The Barn" Restaurant at Glen Burnie, Maryland, who also maintains a strong herd of Polled Shorthorns.

# *A Special Message to* **COMMERCIAL CATTLE BREEDERS**

The figures shown in this table are important **TO YOU**. The table tells in pounds and dollars the superiority of Shorthorns in the 1955 Virginia Feeder Calf Sales. No explanation is necessary because the figures speak for themselves. Note that in every single category the Shorthorns outweighed the overall average of the other breeds and when you consider that Shorthorns have been figured into the all-breed summary, the figures show a tremendous advantage for Shorthorns. Study this table carefully:

★LANEDALE LEADER 2d x2732-575. The future of the Belair herd was being planned around this truly great son of Carona Fascination x, the 1953 International Reserve Grand Champion bull and a half-brother to the 1954 International Champion bull. He is out of Village Butterfly 5th x, a fine daughter of Riverside Fascinator x, in the herd of Ellis L. Shafer, Royal Center, Indiana, the breeder of this unusually desirable young sire. He has an exceptional good masculine head, and up to date has been a 100% dehorner. He undoubtedly will insure the future of the herd into which he goes. The Hanover Bank has agreed to guarantee him as a fertile bull for a six months period following the sale.
